WORK EXPERIENCE

BrightPixel Studio

Remote

SENIOR FRONTEND DEVELOPER

2022 – Present

Led migration of a marketing platform to Next.js and TypeScript, improving Core Web Vitals and reducing page-load time by 38%. Built a reusable component library and a Storybook workflow that shortened UI delivery cycles across product squads.

Nova Commerce

Barcelona, Spain

WEB DEVELOPER

2019 – 2022

Developed responsive e-commerce features with React, Redux, and Node.js for multi-market storefronts. Integrated analytics, payment, and CMS APIs while maintaining strong performance and code quality standards.

Blue Leaf Digital

Madrid, Spain

FRONTEND DEVELOPER

2017 – 2019

Delivered custom brand websites and campaign microsites with a strong focus on pixel-perfect execution. Collaborated with UX teams to translate visual concepts into scalable interfaces using modular Sass and JavaScript.

EDUCATION

Simon Bolivar University

Caracas, Venezuela

B.SC. IN COMPUTER SCIENCE

Focus on software engineering, web technologies, and human-computer interaction with a strong emphasis on product-oriented development.

SELECTED PROJECTS

PRIVATE BANKING & BUSINESS (PBB) Angular 16-20, Reactive Forms, Karma/Jasmine

Internal banking platform delivered at Capgemini for Santander Bank.

Built app and component library from scratch, upgraded Angular 16 to 20, and aligned the front end with Java Spring Boot microservices using DDD patterns, Native Federation readiness, and CI/CD with GitHub Actions.

PROFILE

Frontend-focused web developer with 10+ years of experience building fast, accessible, and conversion-driven digital products. Strong in React ecosystems, design systems, and collaborating closely with product and design teams to deliver clean user experiences.

SKILLS

FRAMEWORKS

Angular 

Ionic 

LitElement 

StencilJS 

AngularJS 

Angular Native Federation (Microfrontends) 

React / Next.js 

Node.js / Express 

Vue / Nuxt 

Spring Boot (Java) 

PROGRAMMING LANGUAGES

TypeScript 

JavaScript (ESNext) 

HTML / CSS / Sass 

SQL / PLSQL 

PHP 

Java 

SAUDI NATIONAL BANK MOBILE APP (SNB)

Ionic, Angular 16/17, RxJS, Reactive Forms

Large-scale banking app at Crealogix for Saudi National Bank across Android and iOS.

Owned maintenance and quality improvements for core journeys (transactions, loans, payments) and supported the SNB QuickPay companion app with stability-focused fixes and refactors.

ZURICH DESIGN SYSTEM

Angular, StencilJS, Storybook

Design system initiative delivered at NTT Data for Zurich Insurance.

Built the design system from scratch, establishing reusable components and shared documentation standards to improve consistency and front-end delivery speed.

GALATEA DESIGN SYSTEM

Angular, StencilJS, Storybook, Microfrontends

Design system and front-end platform delivered at NTT Data for Banco Sabadell.

Served as technical lead during first release support, delivered core web components, and implemented the first microfrontend to define the roll-out integration pattern.

CORDIS

Angular, Team Leadership

European Commission research results portal delivered at NTT Data.

Led the Angular front-end stream and a junior team, setting technical direction, enforcing code quality, and unblocking delivery across feature releases.

BANCA+

Ionic, AngularJS

White-label digital banking product at Synergy-GB for bank-specific deployments.

Contributed to configurable architecture for branding, feature tailoring, backend integration reuse, and CI/CD delivery pipelines with Jenkins across multiple banking implementations.
